If 2 or more adjoining lots of record, one or both of which fail to meet the requirements of this Ordinance with regard to lot area and/or lot width, have continuous frontage and are in single ownership at any time after the application of the provisions of this Ordinance to such lots, and if such lots taken together would form one or more lots, each meeting the requirements of this Ordinance with regard to lot area and lot width, such lot or lots shall no longer be considered nonconforming, and must be used in compliance with the lot area and lot width requirements irrespective of subsequent changes in ownership.

B. In any zone in which single family dwellings are permitted, subject to the provisions of Section 502.A. above, if a lot which is of record at the time of application of the provisions of this Ordinance has insufficient lot area and/or lot width, then a single family detached dwelling may be constructed on such lot regardless of the lot area and/or lot width requirements of this Ordinance, provided:
   1. such building and lot conforms to all other regulations of the district in which such lot is located, and
   2. that no single family dwelling shall be constructed unless a lot or contiguous lots have a total width of at least 40 feet.

When there is an existing building on each of 2 lots adjacent on either side to a lot on which a proposed building is to be erected, where both such existing buildings have an alignment nearer to the street line than the required front yard depth elsewhere specified in this Ordinance, and when both such existing buildings are within 100 feet of the proposed building, the average of the existing front yard depths of such adjacent lots shall be the minimum required front yard depth on which the proposed building is to be erected, provided that the above reduction shall not apply to any special exception uses.
TRAFFIC VISIBILITY ACROSS CORNERS (clear sight triangle)

On any corner lot, no wall, fence or other structure shall be erected or expanded, and no hedge, tree shrub or other vegetation shall be planted or maintained which may cause danger to traffic by obscuring the views of oncoming traffic. Visual obstructions shall be limited to a height of not more than 2 feet above street level within the triangular area bounded by the street cartway lines and a straight line drawn between points on each such line 25 feet from the intersection of such lines.

PROJECTIONS INFO REQUIRED YARDS

In many cases, an applicant may be able to avoid the requirements of this Section 3c) by restricting construction to the less steep portions of a lot.
   6) If the site plan designates areas of over 30 percent slope for the construction of a principal building, then a minimum lot area of 3 acres shall be required for a new lot, and a maximum total of 5 percent of the lot area may be covered by all buildings, paving and stone surfaces.
   7) If the footprint of a new principal building would affect less than 200 square feet with a natural slope of over 30 percent, then the requirements of this Section 3c) shall not apply.
