Section 4: Franchise Provisions and Restrictions.

A. General Provisions:

The franchise granted pursuant to this Ordinance is subject to the following:

1. Federal, state and local laws, rules, regulations, and ordinances, as they exist and as from time to time may be amended.

2. The Right of the Council:
   a. To terminate the same for failure to comply with any material provisions of the Ordinance, and federal, state or local laws, ordinances, rules or regulations.
   b. To require reasonable extension of plant, service and maintenance thereof in accordance with the map attached hereto and made a part hereof.
   c. To control and regulate the use of its streets, alleys, bridges and public places and the space above and beneath them. The franchisee shall pay such part of the reasonable cost of improvement or maintenance of streets, alleys, bridges and public places, as shall arise from the franchisee's use thereof and shall protect and save the County, Town, their agents, employees and servants harmless from all claims and/or damages arising from said use.
   d. To require joint-use of the property and appurtenance of each franchisee located in the streets, alleys and public places of the Town at reasonable compensation, insofar as joint-use may be reasonable and practicable.
   e. Through its appropriately designated representatives, inspect construction or installation work performed subject to the provisions of this Ordinance, rule or regulation thereunder, and make such inspections as are reasonably necessary to insure compliance therewith. However, the franchisee shall remain primarily responsible for design and installation and for compliance with all requirements.
   f. To require, at the expiration of the term of this franchise, or its renewal term, or upon the termination and cancellation as provided herein, the franchisee to remove, at its own expense any and all portions of the CATV system from the public ways within the service area within a reasonable period of time, not to exceed 180 days.

3. The franchise shall not be transferred or assigned, either in whole or in part, or leased, sublet, or mortgaged in any manner, nor shall title thereto, either legal or equitable, or any right, interest or property therein, pass to or vest in any person, corporation, association or other entity either by act of the franchisee or by operation of law, except as security for monies borrowed, or intra-corporate transfers, without the written consent of the Council, which consent shall not be
unreasonably withheld.

4. Prior approval of the Council shall be required where control of more than 25% of the franchisee or all or substantially all of its assets is/are proposed to be acquired by a person, partnership, association, corporation or group of persons acting in concert, none of whom own or control 25% or more of such right of control, singularly or collectively, at the time the franchise is granted. By its acceptance of a franchise, the franchisee acknowledges and agrees that any such acquisition occurring without prior approval of the Council shall constitute a violation of the franchise.

5. The franchise shall be non-exclusive and shall be for a renewal term of ten (10) years from the effective date. Subsequent renewals shall conform to the Cable Communications Policy Act of 1984 and be approved by ordinance in accordance with applicable provisions of the Annotated Code of Maryland.

6. The franchisee shall be governed by the lawful rules and regulations of the FCC and other applicable local state and federal laws, ordinances and regulations as are now in force and as may be subsequently amended from time to time.

8. The franchisee shall have the right to erect, maintain and operate a cable communicates system in, under, over, along, across and upon the streets, lanes, avenues, sidewalks, alleys, bridges, easements, rights-of-way, utility poles and other public places in the Town and subsequent additions thereto, for the service of transmission and distribution of audio and visual impulses and television energy as hereinbefore defined, in accordance with the laws and regulations of the United States of America, the State of Maryland, and the ordinances and regulations of the Town. The Town specifically reserves the right to grant a similar use of said streets, lanes, avenues, sidewalks, alleys, bridges, rights of way, utility poles and other public places to any person at any time during the period of this franchise. Detailed plans and specifications for the installation of works or improvements authorized herein shall first be approved by the Council, which approval shall not be unreasonably withheld, and may be inspected by the Council during the construction to ensure compliance to plans and specifications.

9. (a) The franchisee shall when and where practicable lease, rent, or in any other lawful manner obtain, the use of towers, poles, conduits, cables and other equipment and facilities, from present holders of public licenses and franchises within the corporate limits of the Town on such terms as agreed, subject to all existing and future Ordinances and regulations of the Town and copies of all agreements with public utilities operating within the Town shall be placed on file in the
office of the Council upon their execution. (b) Whenever such facilities are not reasonably available from the sources specified in Section 9(a) hereof, the franchisee shall have the right at its own expense to erect and maintain its own poles, conduits and related facilities as may be necessary for the proper construction and maintenance of its cable television distribution system, subject to applicable laws, ordinances and regulations and restrictions of title.

10. (a) All transmission and distribution structures, lines and equipment erected by the franchisee within the Town shall be so located as to cause minimum interference with the rights or reasonable convenience of property owners who adjoin any of the said streets, alleys, or other public ways and places. Any opening or obstruction in the streets or other public places made by the franchisee in the course of its operations shall be guarded and protected at all times by the placement of adequate barriers, fences or boardings, the bounds of which, during periods of dusk and darkness, shall be clearly designated by warning lights. (b) In case of any disturbance of pavements, sidewalks, driveway or other surfacing, the franchisee shall, at its own cost and expense, and in a manner authorized by the Town, replace and restore all paving, sidewalk, driveway or surface of any street or alley disturbed, in as reasonably as good condition as before said work was commenced. (c) In the event that at any time during the period of this franchise the Town shall lawfully elect to alter, or change the grade of any public street, water main or sewer mains, the franchisee shall upon reasonable notice by the Town, remove, re-lay and relocate its poles, wires, cables, underground conduits, manholes and other telephone fixtures at its own expense. Where public funds are made available for purposes such as urban renewal or historic preservation, which requires relocation of franchisee's facilities, franchisee shall share ratably in such funds. (d) The franchisee shall not place new poles or other fixtures where they will interfere with any gas, electric or telephone fixtures, water hydrant or main sewer main, sewer and water services, or other fixtures placed in any street, and they shall, where practicable, be placed at the outer edge of the sidewalk and inside the curb line, and those placed in alleys shall be placed close to the line of the lot abutting on said alley, and then in such a manner as not to interfere with the usual travel on said public streets. (e) The franchisee shall, upon the request of any person holding a building moving permit, temporarily raise or lower its wires to permit the moving of buildings. The expense of such temporary removal, raising or lowering of wires shall be paid by the person requesting the same, and the franchisee may require such payment in advance. The franchisee shall be given not less than forty-eight (48) hours advance notice to arrange for such temporary wire changes. (f) the franchisee may trim trees upon and over-hanging streets, alleys, sidewalks and public places of the Town so as to prevent the branches of such trees from coming in contact with the wires and cables of the franchisee, all trimming to be done at the expense of the franchisee.

11. The construction and maintenance of the cable television system, including house connections, shall be in accordance with the provisions of the applicable National Electrical Safety Code prepared by the National Bureau of Standards, and such applicable laws and regulations of the Town, affecting such installations, which may be presently in effect or may be from time to time in the future in effect, including a securing of all permits for such construction and maintenance required by applicable law. All structures, equipment lines and connections shall be of permanent nature, durable, and installed in accordance with good engineering practice, and maintained in a safe
condition in good order and repair wherever situated or located.

12. Copies of all petitions, applications and communications by or to the franchisee involving the Federal Communications Commission or any state or county or Town regulatory commission or agency or department having jurisdiction in respect to any matters affecting the franchisee shall also be furnished to the Council by the franchisee.

13. The franchisee shall obtain all permits and authorizations required in the conduct of its business.

14. The franchisee shall, throughout the life of such franchise, keep the Council fully informed with respect to the matters specified below, and the failure to disclose such information during the life of such franchise shall be considered a violation of the franchise and may subject such franchisee to suspension or termination in the case of material violations which are not cured after reasonable notice.

a. The franchisee shall allow the town to audit its financial records relating to gross subscriber revenues upon reasonable notice; make available its engineering, statistical, and customer service records relating to its system; and at all times maintain complete and accurate books of account and records of its business and operation.

b. The franchisee shall file annually with the Council a report indicating all persons who, at any time during the preceding year, controlled an interest in the franchise of 3% or more, setting forth for each the extent of this interest, and all creditors, secured and unsecured, in excess of $10,000.00, setting forth for each the amounts loaned.

c. The franchisee shall also file annually such other information concerning its operation as reasonably may be required by the Council. The Council shall retain, throughout the life of any franchise given in pursuance of the franchise the right to demand reasonable, supplemental, additional or other information as above noted, and, upon proof of the failure to supply such information upon reasonable demand, the franchise under which any applicant may be operating may, at the option of the Council, be suspended upon order of the Council until such information is forthcoming.

B. **Number of Channels**

The franchisee's distribution system shall be capable of carrying 78 channels, including all TV stations required to be carried by the FCC. The system capacity in the forward path shall be at least 550 megahertz. The system shall be designed to have the capability of providing simultaneous reverse direction signals for digital, audio and video signal transmission on all elements of the system when and as allowed by the FCC.

1. The system shall comply with lawful technical regulations promulgated by
2. Whenever it is necessary to interrupt service for the purpose of making repairs, adjustments or installations, the franchisee shall so at such times as will cause the least amount of inconvenience to its subscribers, and unless such interruption is unforeseen and immediately necessary, it shall give reasonable notice thereof to its subscribers.

C. Use of Channels

1. Cablecasting shall be offered pursuant to Subpart G of Part 76 of the Rules and Regulations of the Federal Communications Commission as amended from time to time.

2. There shall be at least one (1) channel designated for local access.

D. Subscriber Equipment

The franchisee shall make available to every subscriber all equipment necessary for reception on the subscriber's set of channels to which he has subscribed. The franchisee shall install all equipment and begin service to each subscriber within ten (10) working days after requested by such subscriber to do so, provided that service is available to a public way abutting the subscriber's property or can readily be made available.

E. Public Service Installations and Basic Service

The franchisee shall provide one free installation and free basic service to all Municipal Buildings, Police Stations, Fire Stations, Public Libraries, Rescue Squad, Youth Center, and Public Schools within the service area. Such installation shall be made at such reasonable locations as shall be requested by the respective units of government or public educational institutions. Any charge for relocation of such installation shall, however, be charged at actual costs. Additional installations at the same location may be made at cost plus 10%. No monthly service charges shall be made for distribution of the franchisee's basic subscriber service within such publicly-owned buildings.

F. Other Business Activities

This franchise authorizes only the operators of a system as provided for herein, and does not take the place of any other franchise, license or permit which might be required by law of the franchisee in order to install its system.

G. Building Apartments

No franchisee shall be required to pay any fee to the building(s) owner(s) to provide cable television service to any member of the public in any privately-owned buildings which are in the Town. Provided, however, that an owner may negotiate and receive reasonable reimbursement from ACTV
for the utilization and installation of equipment on the premises in question. Any disputes between ACTV and a building owner shall be heard at and resolved by a hearing by the Council. Each franchisee shall report to the Council any building owner who requests a fee from the franchisee as a condition for allowing the franchisee to install a cable system service in the building owner's building. Provided, however, that an owner may receive reasonable reimbursement for direct adverse economic impact of such access, if any, based upon evidence of the diminution of investment-back expectations, the impairment of the premises' usefulness, the amount of space occupied by the facilities of the cable communications system, the prior use, if any, of the space, the continued physical availability of space on the premises for installations of alternative modes of television program reception or delivery, the difference in fair market value of the premises resulting from the installation of system facilities and other reasonable, non-speculative factors excluding the holdup value resulting from a landlord's monopoly control of such access. The aforesaid economic impact shall be rebuttably resumed to be a one-time charge of one dollar per dwelling unit. Any controversy or dispute over the reasonableness of reimbursement shall be submitted for resolution by the Council.

H. Repair

Any damage caused to the property of building owners or users or any other person by the sole negligence of the franchisee shall be repaired by the franchisee.

I. Removal of Facilities Upon Request

Upon termination of service to any subscriber, the franchisee shall promptly remove all its facilities and equipment from the premises of such subscriber upon his written request. Franchisee shall not charge a fee for same. Such removal shall be accomplished within fifteen (15) working days after request in writing is made by subscriber to do so.

Section 5: Forfeiture or Surrender of Franchise

A. Forfeiture of the franchise may occur:

If the franchisee fails to substantially comply with the material provisions of the Ordinance, except for causes beyond the reasonable control of the franchisee, as heretofore provided and fails, within thirty (30) days written notice from the Town to correct and/or commence the correction of such default or noncompliance.

B. Upon the termination or forfeiture of this franchise or any renewal thereof, the franchisee shall within 6 months thereafter remove its posts, poles, and all above ground equipment from the streets, lanes, sidewalks, highways, alleys, bridges and other public places in the service area and shall restore such streets, lanes, highways, sidewalks, alleys, bridges and other public places as nearly as possible to their original condition.
C. The franchisee may surrender this franchise at any time upon filing with the Town a written notice of its intention to do so, at least sixty (60) days before the surrender date. On the surrender date specified in such notice, all the rights and privileges, and all of the obligations, duties and liabilities of the franchisee shall cease and terminate; except that the franchisee shall have an additional six (6) months to remove its plant and equipment from the Town streets and all other public lands upon which it is located. At the end of said six (6) months, any property owned by the franchisee and not removed from Town properties will become the property of the Town, to do with as it may choose. Any costs occurring to the Town in removing the franchisee's former possessions from Town streets or land will be a claim against the franchisee. Provided, however, that the Town must comply with Section 627 of the Cable Communications Policy Act of 1984.

D. The franchise herein granted shall, at the option of the Council, cease and terminate upon the appointment of a receiver or receivers or trustee or trustees to take over and conduct the business of the franchisee whether in a receivership, reorganization, bankruptcy or other similar action or preceding. In the case of a foreclosure or other judicial sale of the plant, property and equipment of the franchisee, or any part thereof, including or excluding this franchise, the Council may serve notice of termination upon the franchisee and the successful bidder at such sale, in which even the franchise granted herein and all rights and privileges of the franchisee hereunder shall cease and terminate thirty (30) days after service of such notice, unless:

1. The Council shall have approved the transfer of this franchise, as and in the manner in this Ordinance provided; and

2. Such successful bidder shall have covenanted and agreed with the Council to assume and be bound by all the terms and conditions of the franchise.

Section 6: Town's Right of Intervention

The franchise shall not oppose intervention by the Town in any suit or proceeding to which the franchise is a party.

Section 7: Local Office: Complaint Procedures

A. The franchisee shall maintain a local business office with the system for the purpose of receiving and resolving all complaints regarding the quality of service, equipment malfunctions and other similar matters.

B. The franchisee shall provide a toll-free telephone number at which subscriber may contact the franchisee or agent thereof on a twenty-four hour basis in the case of emergencies and shall notify its subscribers of such service.

C. Complaints by any subscriber may be filed with the franchisee in writing or delivered to the franchisee orally in person or by means of the telephone.
D. Any complaints received from subscribers shall be investigated by the franchisee within eight working hours (9:00 A.M. to 5:00 P.M., Monday through Friday) and corrected in accordance with applicable state rules and regulations, including but not limited to FCC rules and regulations Section 76-309 as enacted or subsequently amended.

E.
